How long is DOJ going to continue to allow these ridiculous lawsuits to go on? When will you say..."this is America, get over it and learn to get along with competition". What does all this litigation do for the people should be the deciding factor. The answer is, nothing. Therefore it is a waste of investor assets, and time and energy that could be spent on mutually beneficial ways to benefit both the companies and the public.

The DOJ is acting like the operators of a cock-fight ring. You are condoning and operating the business of unnecessary fighting between these 2 companies. Put a stop to it and let both of them get back to the business that they are supposed to be in! Thank-you
